

Annual Report 2016

Giving cats a brighter future

Our Story

Purrfect Smiles was created by shelter volunteers in March 2016 as a registered 501(c)(3) nonprofit organization to help raise needed funds and provide medical treatment, enrichment activities, and boarding services for cats. Currently we are working with the Wake County Animal Center in Raleigh, NC and their rescue partners.

We are proud of the success achieved by our nonprofit in its first fiscal year. Thanks to your support, many cats received a second chance and a brighter future. We are very grateful for your support and commitment.

With Gratitude,
Connie & Lily

Cats Saved in 2016

Shiloh is a 6-year old female cat who came to the Wake County Animal Center in January 2016. She was diagnosed with stage 4 dental disease and needed all of her teeth extracted beyond her canines. This sweet kitty received her dental treatment at Raleigh Community Animal Hospital and recovered in a foster home. She was adopted in April 2016!

Storm is a very sweet and loving 5-year old cat who came into the Wake County Animal Center in April 2016. He had major dental work in June - all of his teeth had to be removed! But now he is no longer in pain and can eat and play without any more discomfort. He received his dental treatment at Chatham Animal Hospital. Storm was adopted in September 2016!

Gimlet is quite the handsome fellow born with 16 toes! Yes, 16!!! He came to the Wake County Animal Center in July 2016 in extremely poor condition. The initial diagnosis was chronic end stage hyperthyroidism, but it turns out he was just extremely malnourished when he arrived at the shelter. Gimlet recovered well quickly with groceries and love from one of our fabulous fosters and quickly adopted in August 2016!

Charlotte and her sister Savannah were surrendered to the Wake County Animal Center in December 2016 because their owner became ill and could no longer care for them. During her examination, it was discovered Charlotte has a tumor. After taking Charlotte to Chatham Animal Hospital for preliminary surgery examination, it was discovered that the tumor was infected and blood work revealed it was malignant with a very rare and untreatable cancer. Charlotte is a beautiful, sweet girl who just wants to cuddle on your lap all day and was adopted by her foster family in February 2017 so that she can spend the rest of her days in a forever home!

Piera is a loving, 10-year old kitty who came to the shelter in September 2016. She was immediately diagnosed with dental disease and received her much needed dental treatment at Paws at Play Veterinary Hospital. Piera was adopted by her foster family in December 2016!

Sienna was surrendered to the Wake County Animal Shelter by her previous owner, along with her two baby kittens in early August. After her babies were done nursing, it was time for Sienna to receive her dental treatment at Chatham Animal Hospital in December. Sienna is an easy and mellow kitty that enjoys gazing out the window. Her babies have since been adopted, and Sienna is patiently waiting to find her forever home!
